	black-bordered blue epaulets were allegedly given instructions every day in groups of about 15 to 20 men in the barracks buildings. Half of the settlement near Weixdorf, north of the installation, was allegedly occupied by officers, who were blue-bordered golden epaulets and green-bordered golden epaulets.
il a	The occupation of the barracks installations was unchanged on 31 March. Four young officers with black-bordered blue collar patches and embroidered pilot insignia on the right breast left the installation. On 1 April, 13 officers wearing silver blue equalets left the installation at 1 p.m.
5.	Between 19 March and 3 April, trucks and 10 Sox1-HUM ambulance were seen entering and leaving the installation. On 16 April, two planes landed at the field and shortly thereafter took off 50X1-HUM
	again. The field was still occupied by an air unit on 17 April. There was intensive driver's training with motor vehicles 50X1-HUM
-32 -	Comment. An !WD battalion and an unidentified air force unit are quartered in the barracks installations at the field. The motor vehicle reported do not indicate the type 50X1-HUM of the air force unit observed, but it is believed that it is an air force signal unit.
